ENDLESS POSSIBILITIES
TERRAZZO
BY MELMERSTONEWORKS

WHAT IS TERRAZZO?

Terrazzo can come in different forms with wildly different looks, depending on the recipe, but essentially it is a concrete base (or sometimes resin) mixed with small chips of another material, such as marble, granite or recyled materials like broken ceramics. This gives terrazzo its signature rich, multi-tonal appearance.

MODERN WAYS TO USE TERRAZZO

Backsplashes

Slab backsplashes are a big trend right now.
The fact that terrazzo can be custom-shaped to fit between your cabinets makes it a smart choice, again avoiding wasteful cutting that can come with having to buy an entire 1.2-metre-wide slab just to use half.

Table top

Sure, a white marble tabletop is beautiful, but sometimes you want something a bit more unique to personalise your style. Try a terrazzo tabletop instead, or a fun terrazzo-inspired print, for a lightweight alternative.

Feature walls

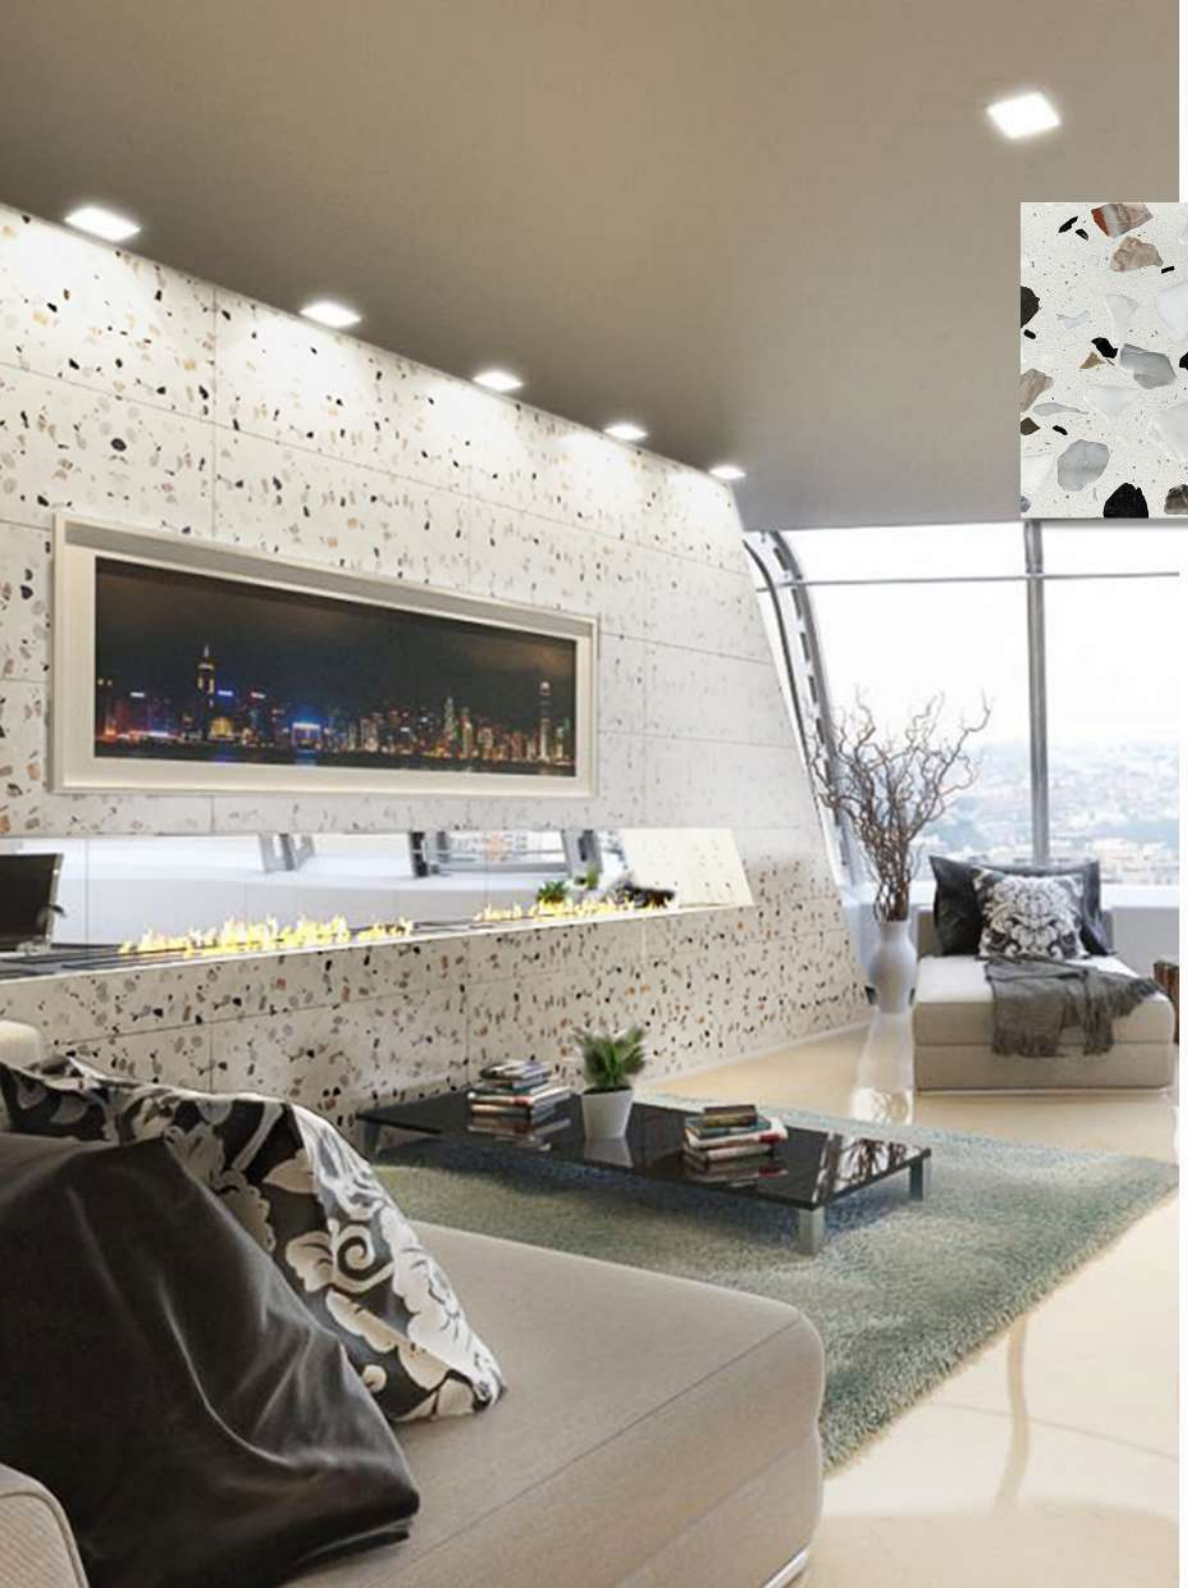
As terrazzo is so durable and non-porous, it works well in bathrooms. Combined with polished concrete floors or ceramic tiles. Feature walls made from terrazzo wall on the right displays larger fragments and is paired with solid colored flooring, making the space cheery & elegant.

Counter tops

Terrazzo has a similar strength and durability to coveted quartz, but with even greater possibilities.

Accesories & novelty items

Inverno

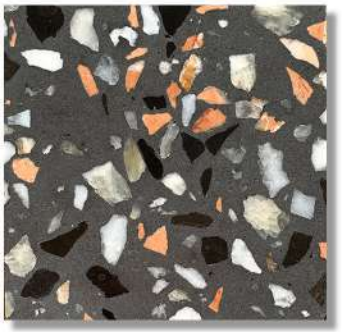


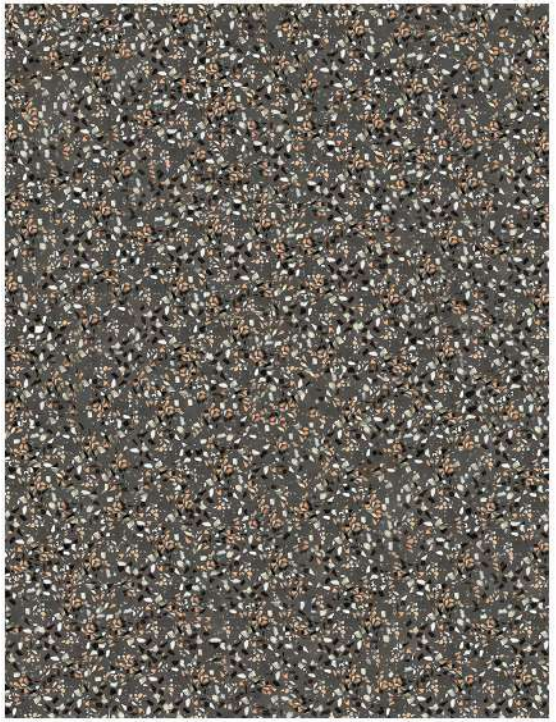
SLAB SIZE: 2400mm x 1600mm x 20mm
WEIGHT: 210.83 KG

Scuro

SLAB SIZE:
2400mm x 1800mm x 20mm
WEIGHT: 225.5 KG

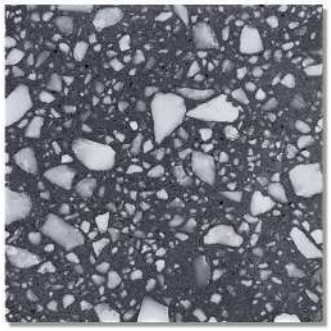
Meteor





SLAB SIZE:
2400mm x 1800mm x 20mm
WEIGHT: 225.5 KG

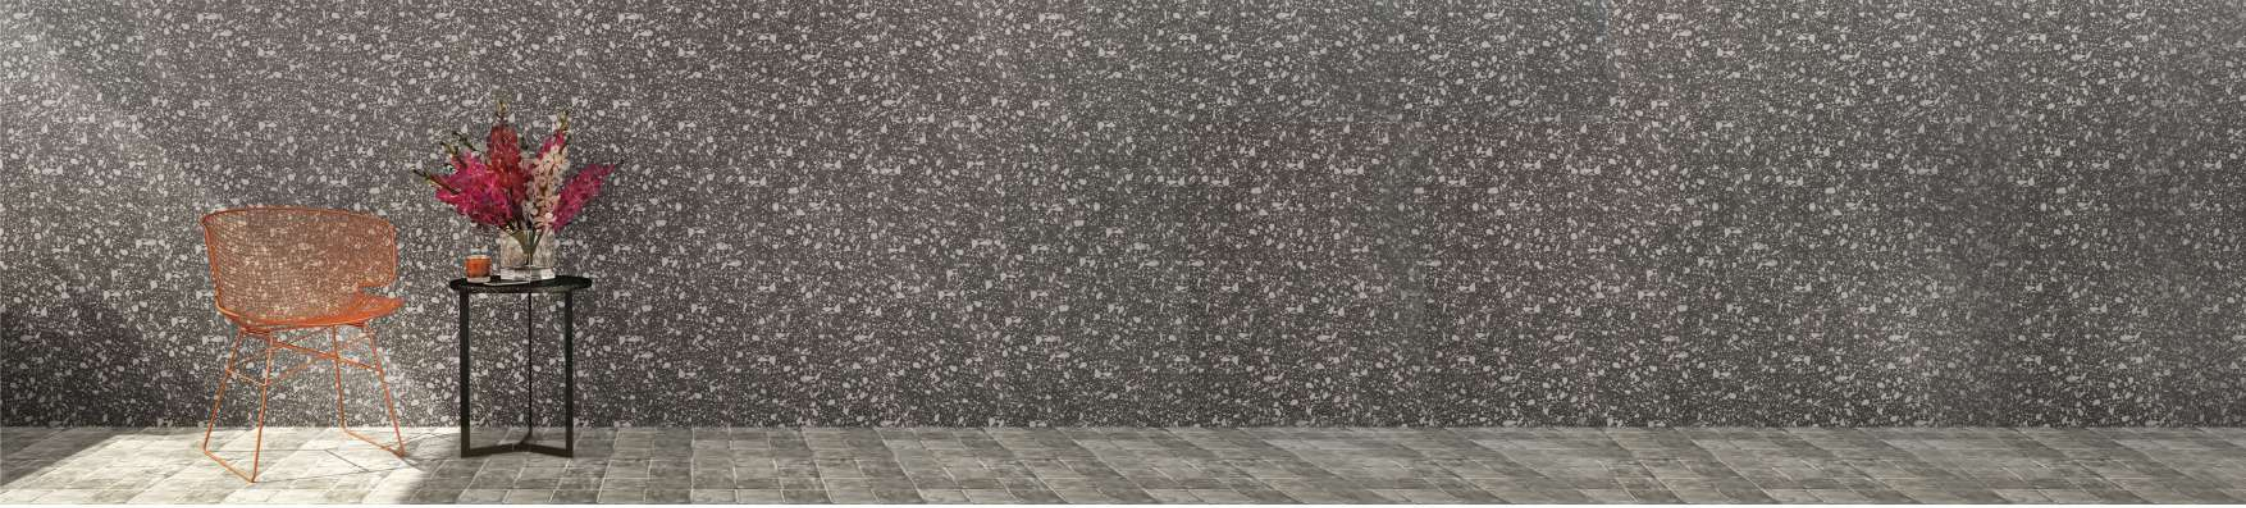
Grigio



SLAB SIZE: 2400mm x 1800mm x 20mm
WEIGHT: 225.5 KG

Notte

SLAB SIZE: 2400mm x 1800mm x 20mm
WEIGHT: 225.5 KG



CERTIFICATION

CARE & MAINTENENCE

Low maintenance MS Terrazzo is designed to offer high performance with low maintenance .

To keep your MS Terrazzo clean, simply wipe with a soft cloth and a pH neutral household liquid detergent.

Avoid exposure to products with high pH levels such as oven cleaner. If MS Terrazzo comes in to contact with such products, rinse immediately to neutralise the effect, and then follow usual cleaning procedure.

Avoid exposure to paint strippers, paint removers, bleach and nail polish remover. Rinse immediately with clean water to neutralise the effect, and then follow usual cleaning procedure.

Avoid exposure to high impact, especially on the edges.

Avoid excessive weight being placed on the counter top, such as tradespeople standing on the counter top when carrying out other work in your residence such as painting or electrical work.
